

Reports & analytics

- **Listener metrics**

View streaming stats by geographic location, device type, date & time, and advertising impressions.

- **ATH & royalty reports**

View Aggregate Tuning Hours (ATH) and royalty reports. In this section you can also download your royalty report in Excel format for PRO submission.

- **On-demand (podcasting) reports**

View the number of impressions for your uploaded on-demand files.

- **Listener poll report**

View listener feedback on songs that you play in the desktop player and mobile apps. This feature can be enabled in the [song and media options](#).

- **3rd party analytics**

Add Google Analytics and/or similar codes to your desktop player for further analysis. Note that this will not include mobile stream reporting and raw stream access.

- **Raw log viewer**

View streaming raw logs. Useful if you wish to import into a 3-rd party analyzer.

- **Advertising affidavit**

Generate advertising affidavit reports for campaigns performance by date range.

Click report icon arrow on menu./Then Click ATH & Royalty reports to select report.

ATH and performances reporting

Single-station report for EUREKA | [Multi-station reporting](#)

Select month date start to end date , select United State and boxes as below. As above this is for stream above. The drop down box above has other streams and when you update below it will change to that streams stats. Scroll down page to 'Download' and save the file as .csv to your PC.

Exclude media with incomplete information

Exclude media with no title, artist and album information.

Exclude media with no listeners

Exclude from royalty reporting media with a duration less or greater than a certain number of seconds.

Leave blank to report all media, regardless of the duration.

Minimum duration:

Maximum duration:

[Update report](#)

Period reported			Year-to-date			Previous year		
ATH	Songs played	Performances *	ATH	Songs played	Performances *	ATH	Songs played	Performances *
1.30	30	30	32.79	284	571	16.47	0	0

* Performances denotes the total number of times a song has been listened. For example, if a listener spends one hour on the player and you air 10 songs, the listener would be counted as 10 performances.

** Please note that royalties are reported based on the listener data; if your material is royalty-free (such as sports or talk shows) please disregard the royalty due column.
